

# Know Your Ring Size

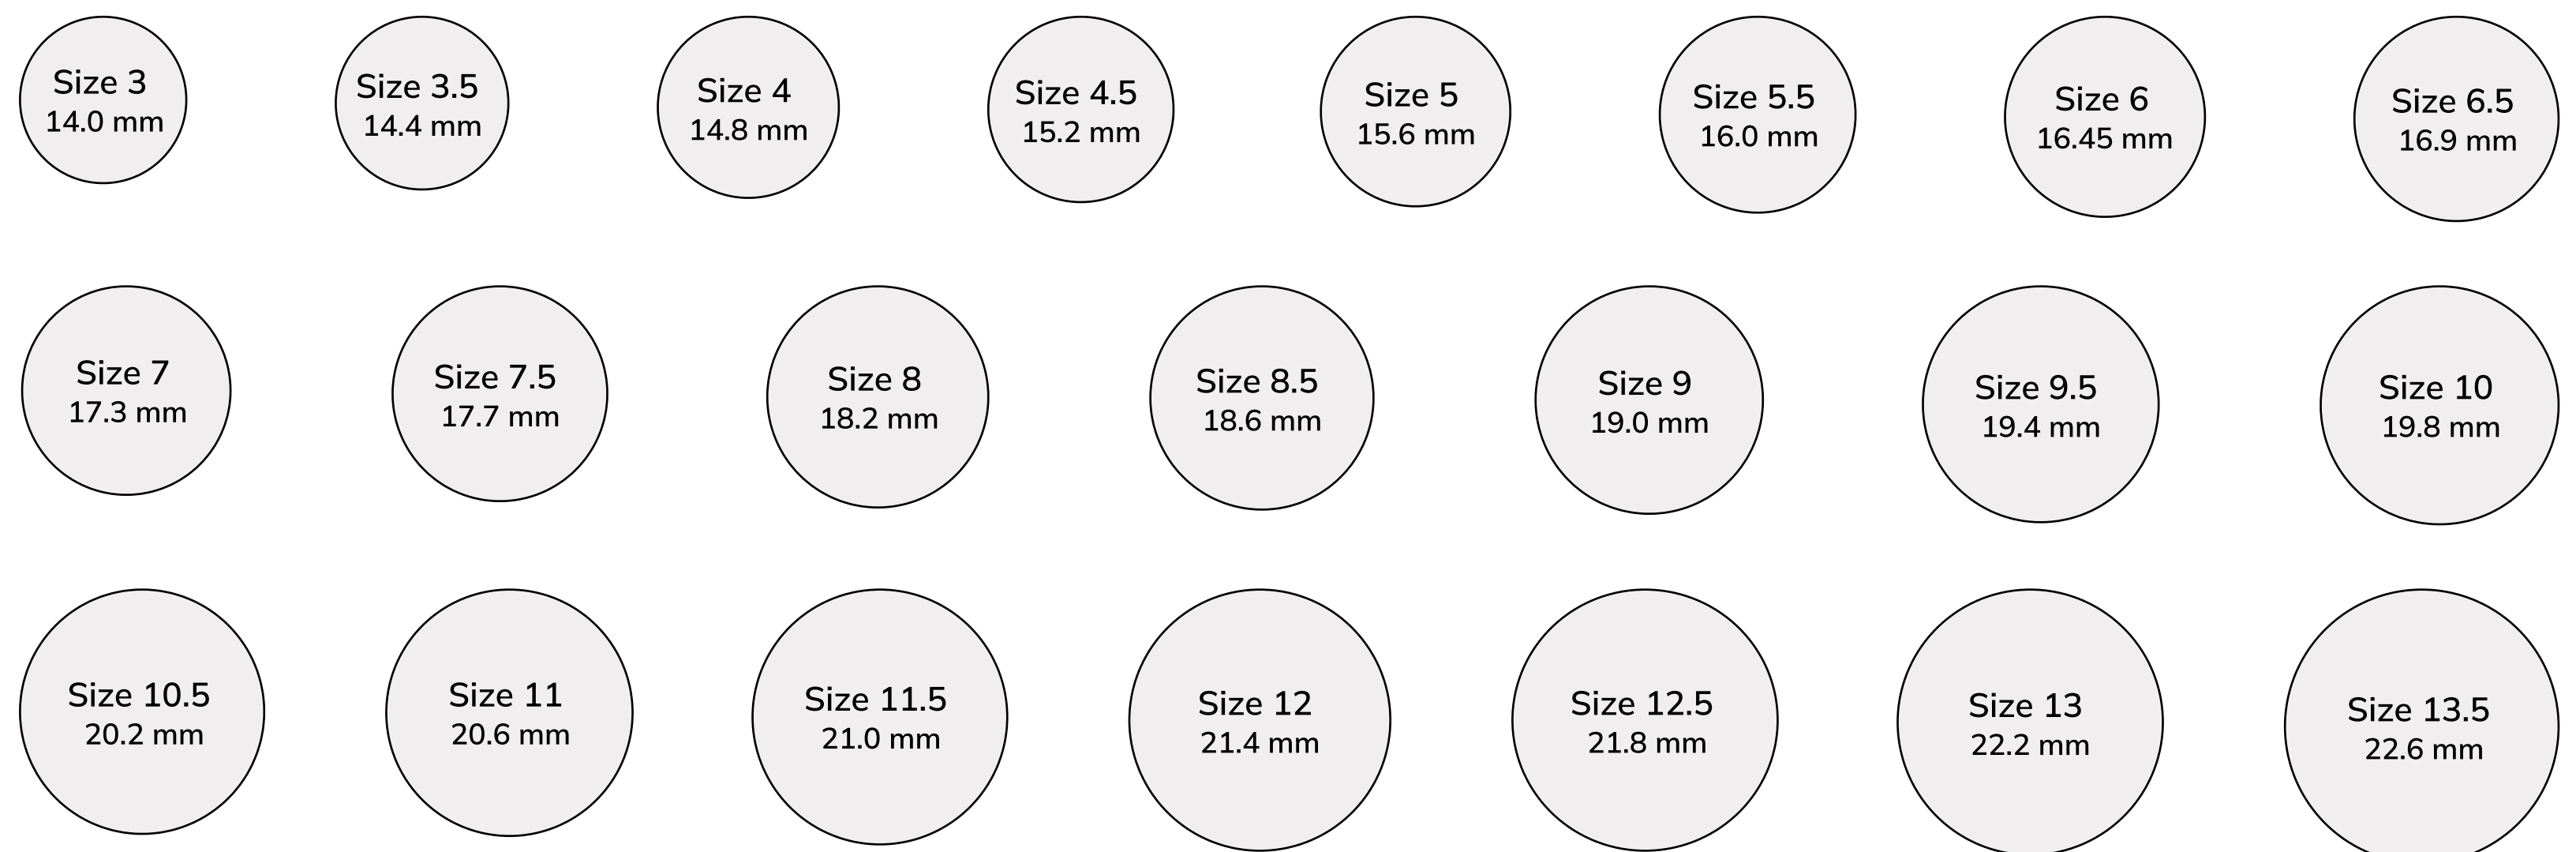

## VALIDATE PAPER SIZE

1. Before printing, set page scaling to "None" on your printer's settings.
2. Once printed, measure the bar below with a ruler ensuring it is exactly 6 inches in length.

## A. MEASURE YOUR RING SIZE

1. Use a ring that is properly sized for the intended finger.
2. Place the current ring over the circles below and match the inside of the ring to the circle of the closest size.
3. When a ring is between two sizes, order a quarter size in between those two sizes. For example, if your ring measures between a size 5 and size 5.5, order size 5.25.

## B. PRINT AND CUT-OUT OUR RING SIZE TOOL

1. Use a scissor and carefully cut out the finger sizer. Make a small slit where it says "Cut Here".
2. Wrap the sizer around the intended finger.
3. Put the right end of the sizer through the slit opening with the numbers facing outwards.
4. Put the sizer tightly around your finger until it is snug.
5. The number that is aligned with the opening of the slit is your accurate finger size.
